

Fairlop is my favorite school, I think that it is very cool, we play, we learn, we read we write and then we all go home for the night.

All my friends are really fun, in the playground we play and run, all the teachers are really nice too, but sometimes might say how ~~naughty~~ naughty are you.

I love the things we do in art, maths and ~~geog~~ geography make me smart, yoga and tennis make you fit, but the homework I only like a little bit.

Reading books in my class, at first I was slow now I am fast, gardening ~~was slow~~ is exciting and sun because we like to watch the flowers and plants ~~grow~~ grow in the sun.

Looking forward to school ⁱⁿ the morning, even though in the car yawning, I'm at the gates ready to go in and can't wait for my classes to begin.

Our school is so proud of the trophies we have won, ^{we} Fairlop ^{rest} school is the best, that's why we beat all the ^{we} want much more competitions to come.

Participating in my school play, is by far the best part of my day, now my poem is nearly done, in my eyes it's already over.

by Louis Braithwaite, age 7, class 3T.
