

My School.

My School is great because, I feel safe I'm happy I have lots of friends, new children meet new friends in Belmont. We have lots of children from different countries, they speak different languages. We also include children that have a disability, some children are in wheelchairs others have special things to walk with, they might have hearing aids so that makes them feel part of our school Belmont. My teachers help me to do my work they are kind they play games with us. They help us to do our concerts and music lessons. That's why my school's the best!
